* The posted local student fees are rounded and are being subsidised by donations.

Fees are invoiced in advance at the start of each calendar month as the monthly fee in yellow above. Families may pay weekly or monthly, but the fees will be invoiced monthly and payments applied accordingly. If families prefer termly or annually, an invoice for that desired period will be raised.

All new enrolments are invoiced at enrolment in advance and pro-rated for the first month if the students enrolment commences mid-term, otherwise the first full months fees are payable, e.g. if the student commences at the start of term 2, there will be 9 months invoices payable that year.

When a student leaves the school the final months fees are payable in full regardless of what date that calendar month the student leaves the school.
